DETAILED ACTION

The submission of amendment filed on 1/11/2006 is acknowledged. At this point claims 6, 8 and 9 have been amended and claims 1-5 and 7 have been canceled. Thus, claims 6, 8 and 9 are at issue in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gerry Elman, Rej. No. 24,404 on March 2, 2006.

Delete claim 8 and insert new claim 8:

A display rack comprising means for directing light into the top of each of plurality of containers having a clear cap, wherein the means for directing light is a plurality of light emitting diodes disposed at position immediately above locations where a container cap is intended to be located, further comprising a guide including a plurality of similar means for guiding the containers, wherein each means has a cross section substantially in the form of pair of parentheses, and wherein the guide permits each container including its cap to slide from one portion of the rack to the next and fall into place at predetermined intervals, whereby a group of

containers would be lit and as one container is removed, another container would fall into place and remain lit.

Allowable Subject Matter

Claims 6, 8 and 9 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to Claims 6 and 8 the prior art of record fails to show a holder for container having a cap including a plurality of similar means for detachably contacting the cap, each having a cross section in the form of a pair of parentheses wherein the cap can slide from one portion of the holder to the next and fall into a place at predetermined intervals.

Referring to Claim 9 the prior art of record fails to show a method for displaying product including loading the multiplicity of product containers, each having a cap, into a rack, wherein the rack has a LED above each of a plurality of locations for the product containers and disposed to direct light onto the cap.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
